Luxury skincare **CBD of London** contains a minimum of 2 per cent CBD cold pressed oil in its ingredients list. The range includes CBD Collagen & Retinol Anti-Ageing Cream (£49), Vitamin Skin Reviver Night Cream (£42) and Advance Bright Eye Repair Serum (£46).

French holistic skincare brand **Ho Karan** has harvested the power of cannabis sativa (hemp) with its organic skincare range, which includes The Invisible Moisturising Shield (£19.90), The Morning Miracle Eye Cream and multi-purpose The High Oil both £24.90.

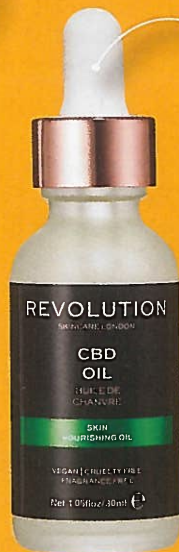

Carolina Herrera 211 VIP Party Fever (£59/100ml) isn't the skunk-infused scent that many imagined. Instead, it's an elegant, refined summer scent that opens with a spicy energy, then mellows with an herbaceous cannabis accord in the heart, giving the fragrance an edge of risk.

MGC Derma is a cannabis and hemp-infused cosmetics range that consists of products for anti-ageing, acne prone, and sensitive skin. Products include CBD Brightening Facial Cream (£75) and Peptides Eye Cream (£65).

Purepotions Skin Salvation (£12.99/60ml) is a hemp-based, all-natural and all-purpose salve. It contains nutritious hemp seed oil, which acts like a vitamin shot to the skin.

Since its launch, **Revolution CBD Oil (£9.99)** has been a bestseller. While it won't chill you out, it will certainly chill out your skin as it nourishes, calms and soothes away dryness.

Soak in the intoxicating aroma of **Kneipp Pure Bliss Bath Salt Crystals in Red Poppy & Hemp (£8.95/500g)**. Known traditionally as a mental sedative, red poppy, combined with relaxing hemp, takes the edge off a stressful day.

Sea Quartz Crystal + Algae Cleanser (£26.50/40ml) is a soft micro-exfoliating paste that transforms into a light cleansing milk upon contact with water. It gently removes dirt, oil and dead skin cells. Ingredients include powdered quartz, such as organic spirulina, turmeric, UK cannabis sativa oil, coconut milk, and chamomile.

With organic hemp oil as an essential ingredient in many of its own best-selling, multi-use products, Dr Bronner's believes passionately in the healing powers of hemp oil. Keep winter-chapped lips supple with **Dr Bronner's Organic Lip Balms (£3.29)**.

Alexia Inge, CEO and co-founder of Cult Beauty which stocks MGC Derma says,

'One of the reasons the cannabis plant has featured throughout human history is that our bodies have native receptors of cannabinoids, especially on the surface of the skin. This makes hemp extracts incredibly bioavailable and instantly absorbed by your skin to start working straight away. Cannabinoids are great for helping heal overly sensitive or inflamed conditions such as eczema, flaking, dry skin or acne. But they also make incredible moisturisers for all those with 'normal' skin types.'
